# ANNUAL EXAMINATIONS

## Mathematics

MARKS  50

Class : II

Time : 2½ Hours

### Syllabus

Lessons : 1 to 13

School Stamp

I. Write the following numbers in ascending order. (2)

921, 613, 717, 895, 508

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

II. Write the following numbers in descending order. (2)

812, 799, 809, 790, 800

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

III. Fill in the boxes with "<, > or =". (4 × ½ = 2)

1. 908  908

3. 371  812

2. 953  539

4. 315  351

IV. Observe the following patterns and write the missing numerals. (2 × 1 = 2)

(i) 103, 102, 101, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, 94.

(ii) 302, 304, 306, \_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_, 320.

V. Do the following division using the number line. (2)

16 ÷ 4

VI. Draw hands to indicate the times given below. (2)

VII. Name the following figures.

(4 × 1 = 4)

VIII. Measure the length of each of the following.

(2 × 1 = 2)

AB = \_\_\_\_\_

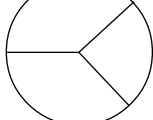

CD = \_\_\_\_\_

IX. Shade the portion indicated by the fraction.

(2 × 1 = 2)

e.g. :  =  $\frac{1}{2}$

1.  =  $\frac{5}{8}$     2.  =  $\frac{1}{3}$

X. Do the following additions.

(3 × 1 = 3)

1.	319	2.	234	3.	256
	180		125		170
	(+) 145		(+) 507		(+) 131
	_____		_____		_____
	_____		_____		_____

XI. Do the following subtractions.

(3 × 1 = 3)

1.	l - ml	2.	kg - g	3.	936
	7 - 350		88 - 550		(-) 477
	(-) 5 - 150		(-) 47 - 300		_____
	_____		_____		_____
	_____		_____		_____

XII. Do the following multiplications.

(3 × 1 = 3)

1.	123	2.	705	3.	101
	× 3		× 1		× 7
	_____		_____		_____
	_____		_____		_____

**XIII. Do the following divisions.**

**(3 × 1 = 3)**

1.  $48 \div 6$             2.  $50 \div 10$             3.  $39 \div 7$

**XIV. Fill in the blanks.**

**(10 × 1 = 10)**

1. The basic unit of money is \_\_\_\_\_
2. A five rupee coin can be exchanged to \_\_\_\_\_ one rupee coins.
3. The number of hours in a day is \_\_\_\_\_
4. The day before Thursday is \_\_\_\_\_
5. The apple looks like a \_\_\_\_\_
6. Write the number name of 135 \_\_\_\_\_
7.  $134 + 345$  \_\_\_\_\_
8.  $3\text{ l } 200\text{ ml} + 4\text{ l } 500\text{ ml} =$  \_\_\_\_\_
9. The standard unit of measuring lengths is a \_\_\_\_\_
10. Denominator in  $\frac{6}{10}$  is \_\_\_\_\_

**XV. Answer the following.**

**(4 × 2 = 8)**

1. Two tins of groundnut oil contain 9 l 750 ml and 12 l 500 ml of oil in them. What is the quantity of oil in both the tins together ?

Ans.

2. There are 345 students in a school. If 87 more join in the school, what is the total strength of the school ?

Ans.

3. 54 chairs are arranged in a hall in 6 equal rows. Find the number of chairs in each row.

Ans.

4. A passenger train has 8 sleeper coaches. If there are 72 berths in each coach, how many berths are there in all the 8 coaches ?

Ans.
