## I. Do the following problems.

(3 × 2 = 6M)

- The cost of purchase of a building together with registration charges Rs. 2,31,925. If later the owner sold it away for Rs. 3,08,400, find his gain.
- 80,345 candidates appeared for an entrance test. If 38,296 were declared eligible for admission, what is the number of candidates who were not eligible ?
- Subtract the difference of 20,000 and 13,295 from 8000.

## II. Write each of the following in the standard form.

(4 × 1 = 4M)

- $(1 \times 10000) + (0 \times 100) + (0 \times 10) + (1 \times 1)$
- $70000 + 700 + 7$
- 2(Ten Thousands) + 0 (Thousands) + 0 (Hundreds) + 6 (Tens) + 2 (Ones)
- $40000 + 5000 + 900 + 10 + 6$

## III. Write the correct answer for each of the following.

(2 × 1 = 2M)

## i) A prime number among

6, 8, 9, 11                      Ans : .....

## ii) A composite number among

13, 15, 17, 19                      Ans : .....

## IV. Do the following subtractions.

(3 × 1 = 3M)

$$\begin{array}{r} 6874 \\ - 3521 \\ \hline \end{array} \qquad \begin{array}{r} 8400 \\ - 1695 \\ \hline \end{array} \qquad \begin{array}{r} 4216 \\ - 1598 \\ \hline \end{array}$$

\_\_\_\_\_

\_\_\_\_\_

V. Compare each pair of numbers given below and put the symbol  $>$  or  $<$  in the circle.

(5 × 1 = 5M)

1. 34368            35071
2. 85874            87548
3. 44544            45444
4. 26379            25971
5. 16125            15974

VI. Fill in the blanks with suitable answers.

(5 × 1 = 5M)

1.  $5 \times 13 = 65$ , so 5 and 13 are ..... of 65.
2. A factor of a number is also a factor of any of its .....
3. 3, 4 and 8 are factors of 96 because .....
4. A multiple of a number is a ..... of any of its factors.
5. The greatest factor of any number is ..... itself.

**I. Answer the following questions :**

(3 × 2 = 6M)

1. What materials do plants use to make their food ?
2. What are the different food items we get from the animals ?
3. What are the functions of the stem ?

**II. Fill in the blanks with suitable words.**

(4 × 1 = 4M)

1. Nagarjuna and Charaka were the ancient experts in \_\_\_\_\_.
2. A complete flower has \_\_\_\_\_ parts.
3. Plant wastes are used in making manure called \_\_\_\_\_.
4. The tiny openings on the surface of the leaves are called \_\_\_\_\_.

**III. Write (T) for the True statements and (F) for the False statements.**

(4 × 1 = 4M)

1. Eggs are rich in proteins.
2. Flowers are the reproductive parts of a plant.
3. Neem leaves and seeds are used for treating liver diseases.
4. Roots prepare food for plants.

**IV. Choose the correct answer and write the letter of the correct answer in the boxes.**

(6 × 1 = 6M)

1. The gas released during the process of photosynthesis

- a) Carbon dioxide      b) Nitrogen      c) Oxygen

2. Paper is made of

- a) Teak      b) Neem      c) Bamboo

3. The solution used to test the starch is

- a) Iodine                      b) Tincture                      c) Both A and B

4. Plants get rid of excess water. This process is known as

- a) Photosynthesis              b) Transpiration              c) Pollination

5. Medicine for malaria is prepared from

- a) Neem tree                      b) Castor seeds                      c) Cinchona

6. We get pearls from

- a) Oysters                      b) Fish                      c) Sponges

V. Match the following.

(5 × 1 = 5M)

A

B

1. wheat

a) vegetable

2. wood

b) medicine

3. cinchona

c) teak

4. coffee

d) cereal

5. brinjal

e) drink

## Listening and Speaking

### I. Read the text carefully then fill in the blanks

(5 × 1 = 5M)

In early April, 1930 Gandhi, 61 years old, reached Dandi after walking 241 miles in 24 days. He then defied the law by making salt. It was a brilliant, non-violent strategy by Gandhi. To enforce the law of the land, the British had to arrest the satyagrahis (soldiers of civil disobedience) and Indians courted arrest in millions. There was panic in the administration and Indian freedom struggle finally gathered momentum both inside and outside of India.

1. Gandhiji walked ..... miles to reach Dandi.
2. He was ..... years old at that time.
3. He defied the law by ..... salt.
4. This was a ..... strategy by Gandhi.
5. The soldiers of civil disobedience were called .....

### II. Have you ever been on a boat ? A ferry maybe ? Or have you ever crossed a water body while travelling ? Where were you going ? How was the journey ? What did you enjoy most about it ? Describe the boat. Talk about it with your partner. (4M)

## Reading

### I. State whether the following statements are true or false.

If incorrect, rewrite them in the space given below.

(4 × 1 = 4M)

1. The Titanic sank on her maiden voyage.
2. The interiors of the Titanic resembled a grand hotel.
3. Captain Smith and his crew did not try to change the direction of the ship.
4. The ship called California came to the rescue of Titanic's passengers.

**Writing**

**I. Read the following sentences. Now rearrange them in the correct order to make a story. Then elaborate each sentence to complete the story. (5M)**

1. The dog reached a stream.
2. A dog grabbed a bone and ran off.
3. There was a bridge over the stream.
4. The dog saw its reflection.
5. The bone drowned in the river.

**Grammar**

**I. Complete the sentences given below by filling the blanks with past tenses of the words given in brackets. (4 × 1 = 4M)**

1. He ----- (board) the school bus.
2. Raj ----- (wake) up at seven in the morning yesterday.
3. He ----- (play) with his friends in the evening.
4. He ----- (eat) his breakfast quickly.

**Vocabulary**

## Listening and Speaking

- I. Read out about one of the most famous monuments in the world. Then answer a few questions about it. (6 × 1 = 6M)

The Great wall of China is a series of stone and earthen fortifications in northern China, built to protect the northern borders of the Chinese Empire. Several walls have been built since the 5<sup>th</sup> century BC in China that are referred to collectively as the Great wall. Majority of the existing wall was built during the Ming Dynasty.

While some portions north of Beijing and other tourist centres have been preserved and even extensively renovated, in many locations the Wall is in ruins. Sections of the Wall have also been destroyed. It is China's biggest and most popular tourist attraction. The length of the wall was over 6,000 kilometres.

1. The passage is about the Great wall of .....
2. The Great Wall of China is a series of stone and earthen fortifications in southern Japan. Correct the sentence. Say what is wrong with it.
3. Several walls have been built since the 5<sup>th</sup> century BC true or false ?
4. Majority of the existing wall was built during the ..... Dynasty.
5. It is China's biggest and most popular ..... attraction.
6. What is the approximate length of the Great Wall of China ?

## Reading

- II. Answer the following questions :

(2 × 2 = 4M)

1. After returning to Baghdad, did Sinbad plan to settle there ?
2. Why was the Kabuliwala arrested ?

## Writing

- III. Imagine you were a wizard. What are the six magical things that you would like to do ?

(5M)

**Grammar**

**IV. Change the sentences into questions. Begin each question with do / does. (5 × 1 = 5M)**

1. Praveen teaches well.  
.....
2. The driver drives carefully.  
.....
3. He is hardworking.  
.....
4. You know him.  
.....
5. The Moon rotates round the Earth.  
.....

**Vocabulary**

**V. Use the following verbs (believe, fill, get, look, put, switch, take, throw, turn, try) and the prepositions (away, down, for, in, off, on, out) and form meaningful sentences.**

(5 × 1 = 5M)

1. The firemen were able to ..... the fire.
2. It's so noisy here. Can you ..... the TV ?
3. Does your little sister ..... demons ?
4. It's dark inside. Can you ..... the light, please ?
5. It's warm inside ..... your socks.

## I. Fill in the following blanks :

(5 × 1 = 5M)

- 1) The line segment drawn through the centre of a circle joining any two points on the circle is called its ( ..... )
- 2) A closed curve which does not cross itself is called a ( ..... )
- 3) A square and a rectangle are special kinds of ( ..... )
- 4) A ( ..... ) is a polygon formed with three line segments.
- 5) If the diameter of a circle is 10 cm, then its radius ( ..... )

## II. A collection of polygons is given below. Classify the polygons into (i) Squares and (ii)

Rectangles.

(5 × 1 = 5M)

a)

b)

c)

d)

e)

## III. Work out the following problems :

(3 × 3 = 9M)

1. There are two square house plots. The side of one plot is 32m. The side of the other plot is two times that of the first one. What is the perimeter of the second plot ?
2. The length of a rectangular plot is 15m and its breadth is 8 m. What is its area ? What is the value of the plot at Rs.400 per sq metre ?
3. A square room has its side equal to 4 metres inside. what is the area of the floor ? What is the cost of cementing the floor at Rs.50 a square metre ?

**IV. Write as kilometres**

**(3 × 1 = 3M)**

a) 70 m

b) 85 m

c) 176 m

**V. Write the following in the standard form.**

**(3 × 1 = 3M)**

i)  $8 + \frac{9}{10} + \frac{3}{100}$

ii)  $900 + 90 + \frac{9}{10}$

iii)  $\frac{6}{10} + \frac{7}{100} + \frac{8}{1000}$

**I. Answer the following questions.**

(3 × 2 = 6 M)

1. Name the different layers of the soil.
2. Mention the factors that influence the weather.
3. What is meant by kinetic energy ? Give an example.

**II. Fill in the blanks with suitable words.**

(4 × 1 = 4M)

1. Protection of the soil is called \_\_\_\_\_ .
2. Evaporation is faster on \_\_\_\_\_ day.
3. A compressed spring is an example of \_\_\_\_\_ energy.
4. Soil is considered as our \_\_\_\_\_ .

**III. Write (T) for True statements and (F) for False statements.**

(4 × 1 = 4 M)

1. Flowing water has potential energy.
2. Fog is formed high above the ground.
3. Photovoltaic cell converts light energy into electrical energy.
4. The layer below the topsoil is called subsoil.

**IV. Choose the correct answer and write the letter of the correct answer in the boxes.**

(6 × 1 = 6 M)

1. The carrying away of the topsoil by wind and water is called   
A) soil erosion                      B) soil conservation                      C) none
2. Some animals in Polar region go into deep sleep. It is called   
A) hibernation                      B) evaporation                      C) condensation
3. Loamy soil contains   
A) rocks                      B) silt                      C) sand, clay and humus
4. The ..... is the ultimate source of energy.   
A) sun                      B) earth                      C) moon
5. The motor converts the electrical energy into   
A) magnetic energy                      B) light energy                      C) mechanical energy

6. One of the following makes evaporation quicker.

- A) the larger surface area      B) more water vapour in the air  
C) rains

V. Match the following :

(5 × 1 = 5 M)

**A**

1. Clothes dry up quickly
2. Polar bears
3. Winter
4. Condensation
5. Snow is like

**B**

- a. hibernation
- b. on a windy day
- c. changing of water vapour into water
- d. pieces of cotton
- e. woollen clothes

4. Why is a donkey also called a 'best of burden'.

### II. Match these wise sayings correctly.

(6 × 1 = 6M)

- |                            |   |   |                      |
|----------------------------|---|---|----------------------|
| 1. Every cloud             | ● | ● | is the best policy   |
| 2. Too many cooks          | ● | ● | you leap             |
| 3. Look before             | ● | ● | spoil the broth      |
| 4. Honesty                 | ● | ● | is a friend indeed   |
| 5. When the cat's are away | ● | ● | has a silver lining  |
| 6. A friend in need        | ● | ● | the mice are at play |

## Reading

### I. Answer the following questions.

(5 × 2 = 10M)

1. Why did the donkey sneeze the first time ?
2. Describe their experience as their spacecraft landed on the Moon.
3. One day when Epimethens slept, what did Pandora do ?
4. How will you describe father William and his son ?
5. How does Mr. Nobody soil the carpets ?

**Writing**

**I. Add some lines to the following paragraph on why we should save trees. Write it. (5M)**

Trees give out oxygen, which is life supporting. Without oxygen there would be no life on planet earth. Trees also adds to the beauty of a particular place. They give us food, shelter and even have medicinal properties.

**II. Write a paragraph on the P. T. class that you have in school. Write about the following :**

- i) Do you enjoy your P. T. class ? Why ? (5M)
- ii) What kind of exercise do you do ?
- iii) Which of these exercises is your favourite ?
- iv) Do you play any games such as basketball, football or cricket ? If yes, which one do you like most and why ?

**Grammar**

**I. Give the comparative and Superlative forms of the following : (10 × 1 = 10M)**

	Positive	Comparative	Superlative		Positive	Comparative	Superlative
1.	Beautiful			6.	Good		
2.	Tall			7.	Long		
3.	Peaceful			8.	Easy		
4.	Difficult			9.	Bad		
5.	Wise			10.	Fat		

**Vocabulary**

**I. Write the meanings of these words. (6 × 1 = 6M)**

- a) Furnace : .....
- b) Fearful : .....
- c) Sinews : .....
- d) Bright : .....
- e) Symmetry : .....
- f) Dare : .....

**II. What will you say ?**

**(4 × 1 = 4M)**

**Fill in the blanks using the correct phrase.**

1. If someone lends you something, you will say, '.....' .
2. If you want to enter someone's room, you'll say, '.....' .
3. If you are late for school you will say to your teacher, '.....' .
4. After school is over, you tell your friends, '.....' .

## I. Fill in the blanks :

(5 × 1 = 5M)

- 1) 5000 grams are equal to 5 ( ..... )
- 2) The standard unit of measuring length is ( ..... )
- 3) The smallest composite number is .....
- 4) The success of every even number is an ..... number.
- 5) The first of the two digit numbers is ( ..... )

## II. Write the correct answer in the boxes given.

(5 × 1 = 5M)

## 1. An even number of the following is

- A) 1                      B) 3                      C) 6                      D) 9

## 2. 10 is a factor of

- A) 25                      B) 30                      C) 35                      D) 45

## 3. The number which is not a factor of 30 among the following is

- A) 3                      B) 4                      C) 5                      D) 6

## 4. A factor of 32 among the following is

- A) 8                      B) 7                      C) 6                      D) 5

## 5. An odd number of the following is

- A) 2                      B) 5                      C) 8                      D) 10

## III. Some statements are given below. If a statement is correct write "TRUE", if not write "FALSE" in the boxes given.

(5 × 1 = 5M)

1. A multiple of a number is greater than and also equal to the number.
2. 1 is a factor of all the numbers.
3. Any number is its own factor and it is also the greatest.
4. All the factors of 10 are 1,2 and 5.
5. 20 is a factor of 5.

**IV. Arrange the digits of each numeral given below in the place - value chart. (4 × 1 = 4M)**

PLACE →	TEN THOUSANDS	THOUSANDS	HUNDREDS	TENS	ONES
NUMERAL ↓	10000	1000	100	10	1
a) 34981					
b) 10675					
c) 57624					
d) 20036					

**V. Write the first 10 multiples of both 3 and 5. From them pick out numbers which are multiples of both 3 and 5. (6M)**

Multiples of 3 : ....., ....., ....., ....., ....., ....., ....., ....., ....., .....

Multiples of 5 : ....., ....., ....., ....., ....., ....., ....., ....., ....., .....

Numbers which are multiples of both 3 and 5 : ( ....., ....., ....., ....., ....., ....., ....., ....., ....., ..... )

**VI. Do the following Subtractions : (5 × 1 = 5M)**

$l - ml$	$kl - l$	$kg - g$
1) $19 - 750$	2) $20 - 250$	3) $70 - 340$
$- 9 - 775$	$- 15 - 875$	$- 58 - 590$
_____	_____	_____
_____	_____	_____

$g - mg$	$km - m$
4) $10 - 000$	5) $150 - 300$
$- 2 - 575$	$- 95 - 875$
_____	_____
_____	_____

**VII. The standard (or short) form of each of the following is : (3 × 1 = 3M)**

- i)  $3000 + 700 + 8 =$
- ii)  $9000 + 90 =$
- iii)  $400 + 80 + 2 =$

**VIII. Write the place value of the digit encircled in each of the following numerals :**

(2 × 1 = 2M)

i) ④086      Place value is

ii) 6②30      Place Value is

**IX. Find the prime factorization of each number given below by Factor Tree Method.**

(2 × 2½ = 5M)

i) 75

ii) 108

**X. Work out the following sums.**

(5 × 2 = 10M)

1. A man has to travel a distance of 1200 km. If he travels 340 km on the first day and 510 km on the second day, how far has he to travel still ?
2. A factory can produce 4200 toys in 6 days. How many toys can it produce in the month of March if there are 6 holidays in that month ?
3. A school book stores has 3650 notebooks in stock. To how many students can these books be sold, if each student gets 16 books ? How many books will still be left over ?
4. What is the total number of minutes in the month of February of an ordinary year ?
5. A, B and C are three employees. A's monthly salary is Rs. 4,755. C's monthly salary is Rs. 750 more than that of A. B's monthly salary is as much as A and C together get. Find the monthly salaries of B and C.

\*\*\*\*\*

**V. Match the following :**

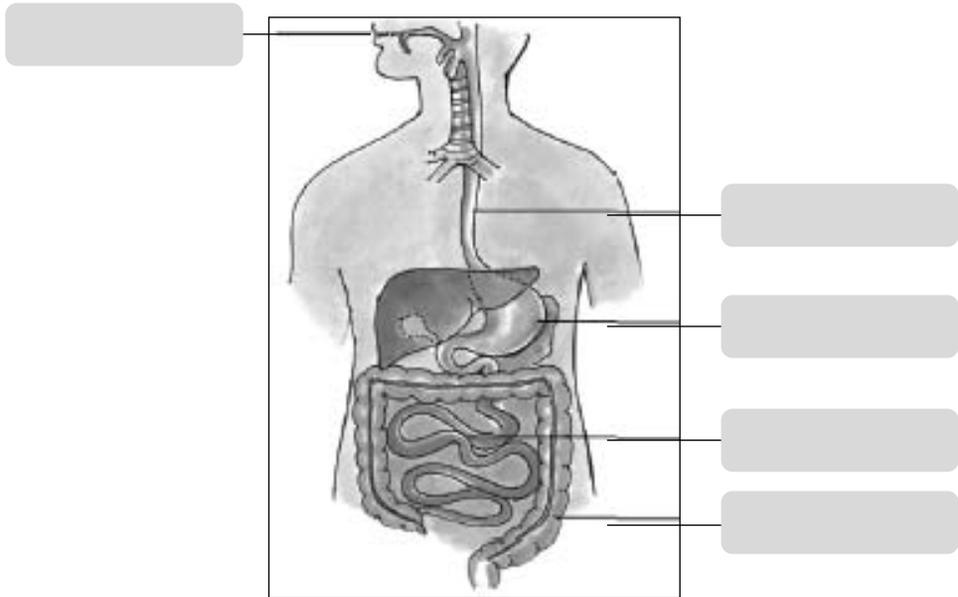

**(5 × 1 = 5 M)**

- A**
- 1. Fermentation
  - 2. Maize cobs
  - 3. Vitamins
  - 4. Cakes
  - 5. Fruit juices

- B**
- a. protective foods
  - b. made by baking
  - c. stored by adding sugar and preservatives
  - d. increases nutritive value
  - e. roasting
